Ballot Title

54

Amends Constitution: Standardizes voting eligibility for school board elections with other state and local elections.

Result of "yes" vote

"Yes" vote deletes unenforceable provisions relating to voter eligibility; deletion would have no substantive effect.

Result of "no" vote

"No" vote retains unenforceable provisions that require citizens to be 21 years of age to vote in school board elections.

Summary

Amends Oregon Constitution. The Oregon Constitution requires voters in school district elections to be 21 years of age and residents in the school district for six months. It also requires voters to pass a literacy test to vote in school district elections. This measure would eliminate these school district voter eligibility requirements because they are unenforceable under the United States Constitution and federal law. Voters in school district elections would still have to satisfy all other voter eligibility requirements for local, state and federal elections in Oregon. This measure would "clean up" the Oregon Constitution by deleting outdated and unenforceable language.

Estimate of financial impact

There is no direct financial effect on state or local government expenditures or revenue.

House Joint Resolution 31—Referred to the Electorate of Oregon by the 2007 Legislative Assembly to be voted on at theGeneral Election, November 4, 2008.

Ballot Title

55

Amends Constitution: Changes operative date of redistricting plans; allows affected legislators to finish term in original district.

Result of "yes" vote

"Yes" vote changes date when new redistricting plans become law, which allows affected state Representatives and Senators to represent their districts for a full term.

Result of "no" vote

"No" vote retains current law permitting state legislator to be reassigned to another district when redistricting plan results in multiple legislators living in one district.

Summary

Amends Oregon Constitution. Reapportionment, commonly called "redistricting" in Oregon, changes the lines of Oregon's state Representative and state Senator districts every 10 years, based on results of the U.S. census. The next census is scheduled for 2010, with redistricting to be done in 2011. Currently, when a redistricting plan takes effect, and more than one Representative or Senator resides in the new district, one of the Representatives or Senators is assigned, temporarily, to another district. For example, in 2001 a Eugene Representative was assigned to represent a district in central Oregon. This measure would allow Representatives and Senators to continue to represent the districts from which they were elected for their full terms, with the new redistricting going into effect after the next general election.

Estimate of financial impact

There is no direct financial effect on state or local government expenditures or revenue.

House Joint Resolution 15—Referred to the Electorate of Oregon by the 2007 Legislative Assembly to be voted on at the General Election, November 4, 2008.

Ballot Title

56

Amends Constitution: Provides that May and November property tax elections are decided by majority of voters voting.

Result of "yes" vote

"Yes" vote provides that majority of voters voting in May and November elections may pass local property tax measure to fund schools, police, local services.

Result of "no" vote

"No" vote retains current law where non-votes have effect of "no" vote in certain local elections where less than 50 percent of voters participate.

Summary

Current law requires that 50 percent of voters participate in an election (except general elections in even-numbered years) in order to pass local property tax measures to raise money for schools, police, libraries, parks or other local government services. This means that non-votes have the effect of a "no" vote where less than 50 percent of qualified voters participate. All other elections are determined by a majority of those who vote, with no voter turnout requirements. This measure eliminates the voter turnout requirement for local property tax elections held in May and November. As a result, for such elections, measures to raise money for schools, police, libraries, parks or other local government services become law when approved by a majority of those voting.

Estimate of financial impact

There is no direct financial effect on state or local government expenditures or revenue.

Senate Bill 1087—Referred to the Electorate of Oregon by the 2008 Special Session of the Legislative Assembly to be voted on at the General Election, November 4, 2008.

Ballot Title

57

Increases sentences for drug trafficking, theft against elderly and specified repeat property and identity theft crimes; requires addiction treatment for certain offenders.

Result of "yes" vote

"Yes" vote increases sentences for drug trafficking (methamphetamine, heroin, "ecstasy," cocaine), theft against elderly and specified repeat property and identity theft crimes; requires addiction treatment for certain offenders; establishes this measure as alternative to other specified measure on this ballot to impose minimum sentences for listed crimes.

Result of "no" vote

"No" vote retains current laws, which provide lesser sentences for specified crimes and do not require treatment for addicted offenders.

Summary

This measure increases prison sentences for specified drug and property crimes as follows:

- Trafficking of methamphetamine, heroin, "ecstasy," or cocaine: 34 - 130 months, depending on the quantity of drugs and criminal history;
- Aggravated theft of over $10,000 where victim is elderly: 16 - 45 months, depending on criminal history;
- Repeat offenses of identity theft, burglary, theft, robbery, mail theft, car theft, forgery, criminal mischief, credit card and check fraud: 18 - 30 months or 24 - 36 months, depending on seriousness of crime and number of past convictions.

This measure also requires treatment for certain addicted offenders at risk of reoffending; imposes sanctions for those who refuse treatment. Limits court's ability to reduce sentences. Provides grants to counties for operation of local jails, treatment services, intensive supervision and drug courts.

If this measure passes with more votes than other specified measure on this ballot to impose minimum sentences for listed crimes, this measure controls and other measure will have no effect. If this measure passes with fewer votes than other specified measure on this ballot to impose minimum sentences for listed crimes, this measure will have no effect. See Explanatory Statement for more information.

Estimate of financial impact

The measure will require additional state spending of approximately $9 million in the first year, $74 million in the second year, $79 million in the third year, $106 million in the fourth year, and more than $143 million each year after that. The measure does not require additional local government spending.

The state will borrow $314 million from 2010 to 2017 to build new prison space. The state will repay those amounts plus interest of $203 million over 25 years.

The measure does not affect the amount of funds collected for state government.

Proposed by initiative petition to be voted on at the General Election, November 4, 2008.

Ballot Title

58

Prohibits teaching public school student in language other than English for more than two years

Result of "yes" vote

"Yes" vote prohibits teaching public school student in language other than English for more than two years (exception for teaching foreign language to English speakers).

Result of "no" vote

"No" vote retains requiring English courses for students unable to profit from classes taught in English, permitting multiple-language instruction to assist transition to English.

Summary

Current law requires instruction in all school subjects (except foreign languages) to be primarily in English; permits instruction in more than one language so students whose native language is not English can make early transition to English; requires schools to provide English courses for children unable to profit from classes taught in English. Measure provides that no public school student shall be taught in language other than English for more than two years, with exception for classes teaching foreign language to English-speaking students. Limits "English immersion classes" (not defined) to no more than two years for students whose primary language is not English and who are not capable of being taught in English; after that, students shall be taught exclusively in English. Other provisions.

Estimate of financial impact

This measure will require additional local school spending between $203 million and $253 million in each of the first two school years. The cost may change in later years, depending upon the number of non-English speaking students in public schools, and their academic performance over time.

The measure does not affect the amount of funds collected for state government, schools, or local governments.

Creates an unlimited deduction for federal income taxes on individual taxpayers' Oregon income-tax returns

Result of "yes" vote

"Yes" vote creates an unlimited deduction for federal income taxes on Oregon income-tax returns filed by individual taxpayers; reduces revenue available for state expenditures.

Result of "no" vote

"No" vote retains current law, which allows limited deduction for federal income taxes on individual taxpayers' Oregon income-tax returns (limit generally is $5500).

Summary

Under current law, personal income taxpayers may deduct a limited amount of federal income taxes when calculating their Oregon taxable income (limit generally is $5500; limit is adjusted yearly for cost-of-living starting in 2008). This measure creates an unlimited deduction for federal income taxes on individual taxpayers' Oregon returns beginning in 2010. Provides "no Oregon taxpayer shall be required to pay to the state, a local government, or other taxing district, an income tax of any kind on money paid to the federal government as federal income taxes." Deduction applies only to federal income taxes paid on income taxed in Oregon; does not apply to corporate excise/income taxes. Reduces revenue available for state expenditures; provides no replacement funding. Other provisions.

Estimate of financial impact

This measure will reduce state budget revenues by approximately $360 million in the first year, $1.0 billion in the second year, and $1.2 billion per year after that, depending upon growth in personal income and federal tax liability.

The measure may result in a reduction of state-shared revenues to schools and local governments. The measure may result in a reduction of federal revenue sharing to state government.

Proposed by initiative petition to be voted on at the General Election, November 4, 2008.

Ballot Title

60

Teacher "classroom performance," not seniority, determines pay raises; "most qualified" teachers retained, regardless of seniority

Result of "yes" vote

"Yes" vote makes teacher pay raises dependent on "classroom performance," without regard to seniority; specific subject training, teaching performance determine retention if lay-offs occur.

Result of "no" vote

"No" vote retains current laws allowing local school boards to pay and retain teachers by qualifications, including teaching competence, experience, educational attainments, licensure and seniority.

Summary

Local public school district boards currently fix salaries, and retention and other contract terms of employment for teachers within their respective districts, subject to state laws regarding collective bargaining, merit, competence, licensure and the Accountability for Schools for the 21st Century Law. Measure eliminates seniority as criterion for pay raises and requires that pay raises for teacher be based solely on that teacher's "classroom performance" (undefined); provides that if a school district reduces teaching staff, the district must retain the "most qualified" teacher, identified by "past classroom experience successfully teaching the specific subject" and academic training in that subject. Measure supersedes any conflicting law or policy, but applies only to teacher contract extensions and new contracts made after the effective date of measure. Other provisions.

Estimate of financial impact

The measure will require between $30 million and $72 million in additional state and local spending in the first school year. Thereafter the measure will require between $30 million and $60 million in additional state and local spending each year.

The measure does not affect the amount of funds collected for state government, schools, or local governments.

Creates mandatory minimum prison sentences for certain theft, identity theft, forgery, drug, and burglary crimes

Result of "yes" vote

"Yes" vote creates mandatory minimum prison sentences for certain crimes, including burglary, forgery, theft, manufacture/delivery of methamphetamine, heroin, cocaine, or methylenedioxymethamphetamine, under specified circumstances.

Result of "no" vote

"No" vote retains current law, which does not require that persons convicted of the crimes specified in the measure serve mandatory minimum prison sentences.

Summary

Measure creates mandatory minimum prison sentences for specified crimes for which current law does not require mandatory minimums. Requires 36-month minimums for identity theft, first degree burglary, and Class A felony manufacture/delivery of methamphetamine, heroin, cocaine, or methylenedioxymethamphetamine; 30-month minimums for Class B felony manufacture/delivery of same specified controlled substances. For offenders with one or more prior felony convictions, or two or more prior misdemeanor convictions, measure requires 18-month minimums for first degree forgery, motor vehicle theft; 14-month minimums for first degree theft, second degree burglary. Prohibits reductions in sentences required by measure. Sentences must be served in state prisons, not in county jails. State must reimburse counties for pretrial incarceration costs for persons sentenced under measure. Other provisions.

Estimate of financial impact

The measure will require additional state spending of $8 million to $10 million in the first year, $67 million to $88 million in the second year, $122 million to $178 million in the third year, $164 million to $247 million in the fourth year, and $161 million to $274 million in each year after that. The measure does not require additional local government spending.

The measure will require the state to borrow between $1.1 billion and $1.3 billion to build new prisons between 2010 and 2017. The state will repay those amounts plus interest of $709 million to $844 million over 25 years.

The measure requires state payments to local government of $2 million to $5 million in the first year and $10 million to $19 million each year after that.

The measure does not affect the amount of funds collected for state government.

Proposed by initiative petition to be voted on at the General Election, November 4, 2008.

62

Amends Constitution: Allocates 15% of lottery proceeds to public safety fund for crime prevention, investigation, prosecution

Result of "yes" vote

"Yes" vote amends constitution to allocate 15% of lottery proceeds to public safety fund; reduces percentage of funds available for other lottery-funded programs.

Result of "no" vote

"No" vote retains current list of authorized purposes for spending lottery proceeds; rejects amending the constitution to allocate specific percentage of proceeds for public safety.

Summary

Amends constitution. Constitution currently apportions lottery proceeds to create jobs, further economic development, finance public education. In addition to those uses, measure requires 15% of net lottery proceeds deposited in public safety fund. 50% of fund moneys are distributed to counties for grants for the following: 20% for early childhood programs for at-risk children; 15% to supplement district attorney operations; 15% to county sheriffs' investigation, field operations. Allocates grants to county under formula: 30% divided equally on per-county basis, 70% divided on population basis. Measure dedicates 50% of proceeds to state police criminal investigation, forensic operations. Measure prohibits legislature from limiting expenditures from fund. Funds to prosecution, sheriffs not a substitute to existing funds. Other provisions.

Estimate of financial impact

It is estimated that the measure would require public safety spending of $100 million out of state lottery revenues in the first year, $106 million in the second year, $113 million in the third year, and $120 million in the fourth year. Spending from that fund would be evenly split between state and local public safety expenditures.

The new required spending of lottery revenues for the public safety fund would reduce lottery funds available to spend for education and for state and local economic development.

Exempts specified property owners from building permit requirements for improvements valued at/under 35,000 dollars

Result of "yes" vote

"Yes" vote exempts farm and residential real property owners from applicable state and local building permit requirements for improvements valued at 35,000 dollars or less.

Result of "no" vote

"No" vote requires farm and residential real property owners to comply with applicable state/local building permit requirements for improvements valued at/under 35,000 dollars.

Summary

Current law requires owner of residential real property or farm property to comply with applicable state and local building permit requirements when making improvements to real property. Measure creates exemption for residential real property and farm property owners from applicable state and local building permit requirements for improvements when the total value of improvements made within a calendar year does not exceed 35,000 dollars. Measure requires improvements to comply with applicable setback requirements and height limitations. Requires property owners to disclose improvements made without building permits to prospective buyers. Requires electrical wiring made to improvement covered by measure to be performed or approved by licensed electrical contractor. Amount of exemption increases annually to adjust for inflation. Measure supersedes conflicting state and local laws. Other provisions.

Estimate of financial impact

This measure will reduce local government revenue between $4 million and $8 million each year. The measure will reduce state government revenue between $450,000 and $750,000 each year.

The measure will reduce local government spending between $4 million and $8 million each year. The measure has no effect on state government spending.

Proposed by initiative petition to be voted on at the General Election, November 4, 2008.

Ballot Title

64

Penalizes person, entity for using funds collected with "public resource" (defined) for "political purpose" (defined)

Result of "yes" vote

"Yes" vote prohibits persons, entities from using money for "political purpose" (defined) if collected with "public resource" (defined), commingled with such money; mandates penalties.

Result of "no" vote

"No" vote retains current law, which does not restrict person's, entity's use of money collected with public resources or commingling such money with "political" funds.

Summary

Current law allows individuals, organizations to use money for "political purposes," including money collected with public resources. Measure prohibits individuals, organizations, other entities from using money for "political purposes" if "public resources" were used in collecting it. "Money" includes in-kind contributions, independent expenditures, pass-through contributions. "Public resources" include money, public employee work time, buildings, equipment, supplies, unless used for conducting elections, issuing official voters' pamphlet. "Used for a political purpose" means: contributed to candidate, political committee, political party, initiative/referendum committee; spent supporting, opposing candidate, ballot measure, gathering signatures for proposed measure, petition; excludes lobbying an elected official. Mandates civil penalty, bars government from collecting money for entity that uses such money for "political purpose" or commingles it with "political" money. Other provisions.

Estimate of financial impact

This measure requires additional state government, schools, or local government spending of less than $100,000.

The measure does not affect the amount of funds collected for state government, schools, or local governments.

Proposed by initiative petition to be voted on at the General Election, November 4, 2008.

Ballot Title

65

Changes general election nomination processes for major/minor party, independent candidates for most partisan offices

Result of "yes" vote

"Yes" vote changes general election nomination processes for most partisan offices; all candidates run in single primary; top two primary candidates compete in general election.

Result of "no" vote

"No" vote retains the current party primary election system, retains procedures for the nomination of minor political party and independent candidates to the general election.

Summary

Currently, major parties nominate candidates to general election through party primaries; minor parties, independents nominate candidates directly to general election. Multiple candidates for office may appear on general election ballot. Measure changes those nomination processes for most partisan offices, including United States Senator; Congressional Representative; Governor; Secretary of State; State Treasurer; Attorney General; State Senator; State Representative; any state, county, city, district office that is not nonpartisan/for which law authorizes political party nominations to general election. Primary ballots contain all prospective candidates; elector may vote for candidate regardless of elector's, candidate's party affiliation. Only top two candidates in primary compete in general election. Primary, general election ballots must contain candidates' party registration, endorsements. Eligible person, regardless of party affiliation, may fill vacancy. Other provisions.

Estimate of financial impact

The measure requires one-time spending by both state and local government of approximately $100,000 total for computer programming changes.

The measure requires approximately $100,000 every two years in additional state government spending for the primary election voter's pamphlet.

The measure requires approximately $227,000 every two years in additional local government spending for primary ballot printing and postage.

The measure does not affect the amount of funds collected for state or local government.

City of Milton-Freewater

Measure 30-40

Five Year Local Option Tax to Provide Public Transportation

Question: Shall Milton-Freewater levy $60,000 annually for five years beginning in FY 11 for public transportation programs?

Summary: This measure would authorize a five year levy of $60,000 per year for a total of $300,000 to continue public transportation services. This measure will subsidize public transportation by bus and taxi for senior and disabled citizens. The local option tax would initially subsidize the total cost of the transportation programs by approximately 19%. The City distributed 8,038 taxi tickets and served 3,023 bus riders in 2007. This tax is expected to maintain the current tax rate of 37 cents and would cost the owner of a home assessed at $75,000 TMV, $27.75 per year. The estimated tax cost for this measure is an ESTIMATE ONLY based on the best information available from the County Assessor at the time of the estimate. The local option tax is subject to the limits of section 11b, Article XI of the Oregon Constitution and revenues raised will not be used exclusively for educational and support services but for other government purposes. The proposed tax measure if approved would not reduce property tax collections for other units of government.

City of Umatilla

Measure 30-41

Advisory Vote for Formation of a Parks and Recreation District

Question: Should the City of Umatilla pursue the formation of a special parks and recreation district?

Summary: The Umatilla City Council is considering the formation of a Parks and Recreation (R&R) district that would include on-going maintenance and development of City parks and implementation of youth and adult recreation programs. The Umatilla Marina and Recreation Vehicle Park is currently operated by the Port of Umatilla. We would propose that the parks and recreation district would partner with the Port of Umatilla for the day-to-day operation of the Umatilla Marina and RV Park. The P&R district boundaries would be determined later but would include the Umatilla city limits and perhaps expanded to include the Umatilla School District boundaries. Potential tax revenue is anticipated to be approximately 50 cents per thousand dollars of assessed valuation. Responsibility for the substantial infrastructure of the Marina and RV Park would remain the responsibility of the Port of Umatilla under a partnership agreement.

Measure 30-70

Umatilla Rural Fire Protection District General Obligation Bond Authorization Caption:

Question: Shall Umatilla Rural Fire Protection District be authorized to issue general obligation bonds not exceeding $1,055,000? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: Passage of this measure would provide funds for capital construction and improvements and bond costs. Specifically, this measure would provide funds to:

Replace ladder truck;

Replace tender/tanker;

Refinance lease purchase agreement;

Replace air packs and associated vehicle equipment; and

Pay fees associated with issuing the bonds.

The bonds would mature in ten (10) years or less from the date of issuance and may be issued in one or more series. The estimated average annual tax rate cost of this bond would be $.5756 per $1000 of assessed value. The owner of a home assessed at $150,000 is estimated to pay $86.34 a year.

Measure 30-71

Hermiston Bond to Construct, Expand, Upgrade Schools; Reduce Operating Costs

Question: Shall Hermiston School District reduce operating costs, accommodate growing enrollment by upgrading, constructing schools, issuing $69,900,000 general obligation bonds? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: Passage of this measure would upgrade school facilities to reduce operating costs and add classroom space to accommodate the district's growing enrollment by providing funds for capital construction and improvements and to pay bond issuance costs. Specifically, this measure would:

Reduce operating costs and increase energy efficiency by renovating and upgrading District facilities including roof replacement; heating/ventilation, electrical, plumbing systems, safety and security, and other site upgrades;

Construct, furnish and equip a new middle school to replace Armand Larive Middle School, originally built in 1936. The new school would be built on district-owned property.

Construct, furnish and equip two elementary schools to replace Sunset and West Park, originally built in 1950 and 1957, respectively. The schools would be built on district-owned property.

Purchase property, make site improvements, pay demolition and bond issuance costs. Bonds would mature in a period not to exceed 25 years from the date of issue. The initial tax rate is estimated to be approximately $1.40 per $1,000 of assessed property value.

Renovation and Upgrade General Obligation Bond Authorization

Question: Shall Pilot Rock School District 2R be authorized to issue general obligation bonds not exceeding $3,420,000? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: If approved, this measure would finance capital construction and improvements and bond costs. Specifically, this measure is expected to provide funds for:

Heating and ventilation systems; insulation; electrical upgrades, including technology capacity; replacement of damaged and improvement of roof surfaces, flooring surfaces, storage area, and exterior door modernization at Pilot Rock Elementary School.

Heating and ventilation systems; insulation; electrical upgrades, including technology capacity; replacement of damaged and improvement of roof surfaces, a storage area, flooring upgrades, and exterior painting at Pilot Rock Junior/Senior High School.

Modernization of the science room and lavatories at Pilot Rock Senior High School.

Design costs, bonding costs, legal fees and legal advertisements, site survey, geotech report, project management costs, design contingency, construction contingency, printing and plan distribution costs, plan review and building permits.

Upon completion of the above purposes, the District may use any remaining bond proceeds for any capitol projects for District facilities. The Bonds would mature in twenty-one (21) years or less from issuance date and may be issued in one or more series.

Measure 30-73

Five (5) year local option Tax

Question: Shall the District levy a local option tax of $30,000 per year for five (5) years? This measure may cause property tax to increase more than three (3) percent. The tax would be imposed for fiscal year 2009.

Summary: The proceeds of the local option tax will be a continuation of the local option tax currently in effect to offset tax revenue lost because of Ballot Measure #50. Echo Rural Fire Protection District #7-403 operates out of three (3) fire stations and 12 vehicles covering 490 square miles. The option tax is needed to operate the Echo Rural Fire District at its current level. The total amount of the local option tax is $150,000 over five (5) years. The estimated rate at present assessed value is $.30 per thousand. This is the best estimate at this time

Measure 30-74

Five-Year Local Option Levy for Vector (Mosquito) Control Operations

Question: Shall West Umatilla Vector Control District Levy .09 per $1000 of assessed value for 5 years beginning 2009-2010?

Summary: The West Umatilla Vector Control District will use the tax revenue from this measure to provide improvements to general operations, including the following:

Maintain the response to West Nile Virus or other mosquito-borne disease.

Continued utilization of aircraft for mosquito control operations.

Continued outreach programs and public education efforts.

Continued utilization of available technology for mosquito control operations.

Maintain and upgrade vehicle and equipment.

The proposed levy will raise approximately $173,153 in 2009-10, $178,347 in 2010-11, $183,698 in 2011-12, $189,209 in 2012-13, and $194,885 in 2013-2014. This estimate is based on the best available information from the Umatilla County Assessor, and is an ESTIMATE ONLY. This levy would cost the owner of a home with an assessed value of $100,000, $9.00 per year.

East Umatilla County Health District 7-691

Measure 30-75

Five Year Local Option Taxes for General Operations

Question: Shall East Umatilla County Health District impose a $.28/$1,000 assessed value for operations beginning 2009/2010 and continuing for five years? This measure may cause property taxes to increase more than three percent.

Summary: The East Umatilla County Health District is seeking new tax revenue for the following:

Help fund a full-time paramedic/administrator and part-time office manager.

Continue to provide advance life support (ALS) medical services to patients' on a 24-hour per day, 365 days per year basis.

Without additional revenue, the district will only be able to provide "basic" life support (BLS) services.

A small amount of the revenue will be used for vehicle, building, equipment maintenance, and certification of EMT's.

The proposed rate will raise $371,640 over the five-year period. This new amount will be added to the District's fixed rate of $.14/$1,000. The estimate tax cost for this measure is an ESTIMATE ONLY based on the best information available from the county assessor at the time of the estimate.

Measure 30-76

Helix School District 1R General Obligation Bond Authorization

Question: Shall Helix School District 1R be authorized to issue general obligation bonds not exceeding $1,400,000? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution.

Summary: If approved, this measure would finance capital construction and improvements and bond issuance costs. It is expected that this measure would provide fund for:

Electrical Upgrades

Two Classrooms

Boiler Modernization

Heating/Ventilation Modernization

Gym/Locker Room Modernization

Parking Lot Improvement/Upgrades

Window Upgrades

Woodshop Siding Replacement

Site improvements, furnishing and equipping for above projects and to pay bond costs

The Bonds would mature in sixteen (16) years or less from the date of issuance and may be issued in one or more series. It is estimated that the proposed tax will result in a rate of $.92 per $1,000.00 of assessed value in the first year.

Measure 30-77

Umatilla School District #6R General Obligation Bond Authorization

Question: Shall District issue general obligation bonds not exceeding $6,500,000.00 to renovate and add to current facilities at McNary Heights Elementary? If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of Section 11 and 11b, Article XI of the Oregon Constitution.

Summary: McNary Heights Elementary is currently over capacity, housing approximately 660 students in grades K-5. The building was built to serve approximately 450 students. The roof and carpets are original (with the exception of repaired areas) and are now in need of replacement and/or repair.

If approved, this measure would provide funds to construct, equip and furnish fifteen additional classrooms at McNary Heights Elementary, renovate and update existing school facilities, construct a gymnasium to allow the current gymnasium to to be used as a cafeteria to accommodate larger numbers of students, and make related site improvements and pay issuance costs.

If approved, the estimated property tax rate is expected to be $2.15/$1,000 of assessed value per year. For example, a house assessed at $100,000 would pay an estimated $215.00 per year over the life of the debt service. These bonds are not to exceed 21 years from the date of issuance

Riverside Fire District 7-406

Measure 30-78

5 Year Local Option Tax

Question: Shall the District Levy a Local Tax of $60,000 per year for the five years beginning in 2009? This measure may cause property taxes to increase more than three percent.

Summary: The District is unable to continue funding the contract with the City of Pendleton for District fire coverage. With the tax limitations of ballot measure #50 there are limits on the District's levies. The City of Pendleton has raised their charge for fire coverage until the annual fee is larger than the District's annual levy. Our fee for the year ended June 30, 2008 has not been paid in full to date. This levy is necessary to continue the existing fire coverage provided by the City of Pendleton.

The total amount of the Local Option Tax is $300,000 over 5 years. The first year the tax will be levied is the 2009-2010 year. The estimated annual tax rate cost of this levy would be $1.564 per $1,000 of assessed value. The owner of a home assessed at $150,000 is estimated to pay $234.60 per year.

Measure 30-79

Milton-Freewater Water Control District General Obligation Bond Authorization

Question: Shall Milton-Freewater Water Control District be authorized to issue general obligation bonds not exceeding $1,500,000.00? "If the bonds are approved, they will be payable from taxes on property or property ownership that are not subject to the limits of sections 11 and 11b, Article XI of the Oregon Constitution."

Summary: Passage of this measure would provide funds for capital construction and improvements and bond costs. Specifically, this measure would provide funds to repair the riprap slope, and erosion of the levee toe downstream of the Nursery Bridge along the east side of the channel, the riprap slope, and erosion of the levee toe downstream of the Couse Creek Road Bridge, along the right side of the project; repair of the concrete erosion of the stilling basin below the Nursery Bridge Drop Structure, and repairs to the concrete erosion of the Nursery Bridge Drop Structure.

The bonds would mature in twenty one years (21) years or less from the date of issuance and may be issued in one or more series. The estimated average annual amount of this bond would be $0.33 per $1000 of assessed value. The owner of a home assessed at $200,000 is estimated to pay $66.00 a year.
